What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business areas like the real estate and financial investment business activities of HVB Group could have an adverse impact on HVB Group's profitability and financial position.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank as well as risks from unexpected negative changes in the business volume and/or margins (that are not attributed to other risk types) could result in potential losses and/or a reduction of the fair value of the bank.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group and its financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. It can be expected that the global spread of the coronavirus will signif-

icantly slow down global economic growth in the first half of the year. It is also possible that the burden will last longer depending on the course of the pandemic.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Express Plus Securities with cash settlement (with final Barrier observation) (Quanto)

Underlying: NYSE Arca Gold BUGS (Price) Index (ISIN: XC0009699965)

The Securities are issued as bearer bonds within the meaning of § 793 German Civil Code (*Bürgerliches Gesetzbuch*). The Securities will be represented by a global note and are freely transferable. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance, Nominal Amount and Term

The Securities will be issued on 30.10.2020 in Polish Złoty (PLN) (the "**Specified Currency**"), with a Nominal Amount of PLN 1,000.00, as up to 10,000 Certificates. The Securities have a definite term.

Redemption of the Securities

Automatic early redemption on the Early Payment Dates (k)

The Securities will be redeemed early on the relevant Early Payment Date (k), if an Early Redemption Event occurs. In this case, the Security Holder receives the Early Redemption Amount (k) on the respective Early Payment Date (k).

An Early Redemption Event means that the Reference Price on the respective Observation Date (k) is equal to or greater than the Early Redemption Level (k).

Early Redemption Level (k) means the product of the Early Redemption Factor (k) and the Initial Reference Price.

k	Observation Date (k)	Early Payment Date (k)	Early Redemption Factor (k)	Early Redemption Amount (k)
1	25.01.2021	01.02.2021	95 %	PLN 1,018.00
2	23.04.2021	30.04.2021	95 %	PLN 1,036.00
3	23.07.2021	30.07.2021	95 %	PLN 1,054.00
4	26.10.2021	02.11.2021	95 %	PLN 1,072.00
5	24.01.2022	31.01.2022	95 %	PLN 1,090.00
6	25.04.2022	02.05.2022	95 %	PLN 1,108.00
7	25.07.2022	01.08.2022	95 %	PLN 1,126.00
8	24.10.2022	31.10.2022	95 %	PLN 1,144.00
9	23.01.2023	30.01.2023	95 %	PLN 1,162.00
10	24.04.2023	02.05.2023	95 %	PLN 1,180.00
11	24.07.2023	31.07.2023	95 %	PLN 1,198.00

Redemption as at the Final Payment Date

If the Securities are not redeemed early, the Securities will be redeemed on the Final Payment Date as follows:

- (A) A Barrier Event has not occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Maximum Amount.
- (B) A Barrier Event has occurred. The Security Holder receives the Redemption Amount in the Specified Currency which is calculated by multiplying the Nominal Amount by a quotient. The quotient is formed by dividing the Final Reference Price by the Strike.

If a Barrier Event has occurred, the Redemption Amount will not be greater than the Nominal Amount.

Additional definitions and product terms

Barrier means the product of the Barrier Level and the Initial Reference Price.

Barrier Event means that the Final Reference Price is lower than the Barrier.

Final Reference Price means the Reference Price of the Underlying determined on the Final Observation Date.

Initial Reference Price means the Reference Price of the Underlying determined on the Initial Observation Date.

Strike means the product of the Strike Level and the Initial Reference Price.

Reference Price	Barrier Level	Strike Level	Maximum Amount	Initial Observation Date	Final Observation Date	Final Payment Date
Closing price	80 %	100%	PLN 1,216.00	27.10.2020	23.10.2023	30.10.2023

Extraordinary termination right: The Issuer has the right to extraordinary terminate the Securities at the fair market value of the Securities upon the occurrence of certain Call Events (for example, the calculation of the Underlying is discontinued and no suitable replacement underlying is available).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, a change to the relevant index concept).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank *pari passu* with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

No application for the Securities to be admitted to trading has been made and no such application is intended. However, application to listing is expected to take place on 13.11.2020 on the following exchanges, markets and trading systems: Warsaw Stock Exchange (ETP segment)

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital. A total loss is possible. Falling prices of the Underlying will have a negative impact on the Security Holder, especially if a Barrier Event occurs.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are terminated by the Issuer. The Securities will then be redeemed at their fair market value of the Securities. This may be lower than the amount that the Security Holder would have received if there had been no extraordinary termination of the Securities. In addition, Security Holders bear a reinvestment risk. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Indices as Underlying: The Securities are associated with risks for Security Holders similar to those of direct investments in a comparable portfolio of the assets underlying the relevant Index. Changes in the value of the Index Components consequently directly affect the price of the Index.
