The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due on the Final Payment Date and which is adjusted for taking into consideration the following parameters as of the first Banking Day before the Final Payment Date: the price of the Underlying, the remaining

time to maturity, the estimated volatility, the dividends (if applicable), the current interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities. However, the Settlement Amount shall not be less than the Minimum Amount. If it is not possible to determine the market value of the Securities, the Settlement Amount corresponds to the Minimum Amount. The Settlement Amount shall be notified pursuant to § 6 of the General Conditions. The application of §§ 313, 314 BGB remains reserved.

The right for payment of the Additional Amount (k) ceases to exist in relation to all Additional Amount Payment Dates (k) following the occurrence of a Conversion Event.

The Settlement Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.

§ 6 Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the smallest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7 Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date shall be postponed for all Basket Components to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price_i required for the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. Such Reference Price_i shall be the reasonable price determined in accordance with prevailing market conditions at 10:00 am (Munich local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Derivatives of the respective Basket Component_i expire or are settled on the Determining Futures Exchange_i, the settlement price established by the Determining Futures Exchange_i for the traded Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions of these Securities. In that case, the expiration date for those Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Notifications, Legal Provisions

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions of these Securities (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 in its reasonable discretion (§ 315 et seq. BGB), taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

Within the context of an Adjustment in relation to a Basket Component, the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the respective Determining Futures Exchange, regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no Adjustment made to the Underlying Linked Derivatives by the respective Determining Future Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the respective Determining Futures Exchange, with respect to the Underlying Linked Derivatives.
- (b) *Deviating Adjustments:* In the following cases in particular the Calculation Agent is authorised to make Adjustments deviating from the Adjustments made by the respective Determining Futures Exchange, in order to take into account the Adjustment Goal in an appropriate manner.
- (i) The Adjustment envisioned by the respective Determining Futures Exchange, regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
- (ii) The Adjustment envisioned by the respective Determining Futures Exchange, regarding the Underlying Linked Derivatives is unreasonable for Securities Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
- (iii) The Adjustment envisioned by the respective Determining Futures Exchange, is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).
- (2) *Type of Adjustment:* In the context of an Adjustment in relation to a Basket Component, the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:
- (a) *Adjustment of Product and Underlying Data:* The Calculation Agent may redefine the Product and Underlying Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the relevant Basket Component;

or a third party, that impacts the computed value of the relevant Basket Component; not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).

- (b) *Replacement of a Basket Component:* In case of a take-over or a merger or similar measure with respect to the relevant Basket Component; the Calculation Agent can replace the relevant Basket Component; with the share of the successor of the issuer of the original Basket Component; or with another share of – inter alia – comparable liquidity and industry affiliation as the original Basket Component; (the "**Replacement Basket Component**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Basket Component.

In case of a split or a similar measure with respect to the relevant Basket Component; the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Basket Component;. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Basket Component; to be the Replacement Basket Component. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Basket Component, from the Adjustment Date on (as defined in paragraph (4) below), every reference to the relevant Basket Component; in these Terms and Conditions shall be a reference to the relevant Replacement Basket Component, unless the context requires otherwise.

- (3) *Replacement Specification:* If a price of a Basket Component; published by the respective Relevant Exchange; and required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange; after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.
- (4) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.
- (5) *Legal Provisions:* The application of §§ 313, 314 BGB remains reserved.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, the further spreading of new variants of COVID-19, a severe economic slowdown in China and tensions between the US and China about trade and Taiwan could dampen or endanger the continuation of the recovery of the global economy. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Cash Collect Worst Of Protected Securities

Underlying: The Underlying is a basket consisting of the following shares as Basket Components:

i	Basket Component _i	Reference Price _i
1	Advanced Micro Devices Inc.	Closing price
2	Bayerische Motoren Werke AG	Closing price
3	Tesla, Inc.	Closing price

The Securities are issued as bearer bonds within the meaning of § 793 German Civil Code (*Bürgerliches Gesetzbuch*). The Securities will be represented by a global note and are freely transferable. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance, Nominal Amount and Term

The Securities will be issued on 20.05.2022 in Polish zloty (PLN) (the "**Specified Currency**"), with a Nominal Amount of PLN 1,000.00 as up to 100,000 Certificates. The Securities have a definite term.

Additional Conditional Amount (k)

The Security Holder will receive an Additional Conditional Amount (k) subject to the following conditions:

- (A) On an Observation Date (k), an Additional Conditional Amount Payment Event occurs. On the respective Additional Conditional Amount Payment Date (k), the Security Holder will receive the respective Additional Conditional Amount (k).
- (B) On an Observation Date (k), an Additional Conditional Amount Payment Event does not occur. On the respective Additional Conditional Amount Payment Date (k), no Additional Conditional Amount (k) will be paid.

Additional Conditional Amount Payment Event means that the Worst Performance (k) on the respective Observation Date (k) is equal to or greater than the Additional Conditional Amount Payment Level (k).

With regard to the determination of an Additional Conditional Amount Payment Event, the performance of each Basket Component is formed by dividing the respective Reference Price_i on the Observation Date (k) by the respective Initial Reference Price_i on the Initial Observation Date. The Worst Performance (k) is the lowest value of such quotient.

k	Observation Date (k)	Additional Conditional Amount Payment Level (k)	Additional Conditional Amount (k)	Additional Conditional Amount Payment Date (k)
1	19.10.2023	65 %	PLN 120.00	26.10.2023

Redemption of the Securities

The Securities will be redeemed on the Final Payment Date as follows:

The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Minimum Amount.

Additional definitions and product terms

Conversion right: The Issuer has the right to convert the Securities and redeem them at the Settlement Amount of the Securities upon the occurrence of certain Conversion Events (for example, if price quotation of a Basket Component on the relevant exchange is finally ceased).

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, the company that issued a Basket Component performs a corporate action).

Status of the Securities: The obligations under the Securities constitute direct and unsecured obligations of the Issuer and rank *pari passu* with all other unsecured and unsubordinated obligations of the Issuer. In the case of a resolution (bail-in), the Securities will, within the liability cascade, be considered only after all non-preferred liabilities of the Issuer.

Where will the Securities be traded?

Admission to trading: Application will be made for the Securities to be admitted to trading with effect from 03.06.2022 on the following markets: Warsaw Stock Exchange (ETP segment)

Listing: Application will be made for the Securities to be admitted to listing with effect from 03.06.2022 on the following markets: Warsaw Stock Exchange (ETP segment)

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Basket Component with the worst performance falls during the term of the Securities and consequently the Security Holder will achieve only a small or no current yield at all during the term of his investment. A partial loss of his invested capital is possible, depending on the Minimum Amount.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are converted by the Issuer. The Securities will then on the Final Payment Date not be redeemed at the Redemption Amount but the Settlement Amount of the Securities. This does not depend on the performance of the Underlying and may be less than the Nominal Amount even if the Underlying performs favourably. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Shares as Basket Components: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the Shares specified as Basket Components. The price of a Share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the Share.

Ryzyko prawne i regulacyjne: Zmiany w otoczeniu regulacyjnym i ustawowym HVB mogą spowodować wzrost kosztów kapitałowych i wzrost kosztów związanych z wdrożeniem wymogów regulacyjnych. W przypadku braku zgodności z wymogami regulacyjnymi, przepisami (podatkowymi), regulacjami, przepisami ustawowymi, umowami, obowiązkowymi praktykami i normami etycznymi, może to mieć negatywny wpływ na postrzeganie sytuacji finansowej a także przychodów Grupy HVB przez opinię publiczną.

Ryzyko strategiczne i makroekonomiczne: Ryzyko wynikające z niewłaściwego lub niedostatecznie wczesnego rozpoznania przez kierownictwo istotnych zmian lub tendencji w otoczeniu banku oraz ryzyko wynikające z negatywnego rozwoju sytuacji gospodarczej w Niemczech oraz na międzynarodowych rynkach finansowych i kapitałowych może mieć negatywny wpływ na aktywa, pasywa, sytuację finansową oraz wynik finansowy Grupy HVB. Jakie są kluczowe ryzyka właściwe dla Papierów Wartościowych?

Szczególne czynniki ryzyka związane z Papierami Wartościowymi, które zdaniem Emitenta są istotne, zostały opisane poniżej:

Ryzyko związane z pierwszeństwem i rodzajem Papierów Wartościowych w przypadku upadłości Emitenta: Posiadacze Papierów Wartościowych ponoszą ryzyko niewypłacalności Emitenta. Ponadto, Posiadacze Papierów Wartościowych mogą zostać objęci środkami naprawczymi zastosowanymi w stosunku do Emitenta w przypadku upadłości lub prawdopodobieństwa upadłości Emitenta.

Ryzyko szczególne związane z profilem wykupu Papierów Wartościowych: Istnieje szczególne ryzyko, że cena Składnika Koszyka spadnie i w konsekwencji Posiadacz Papierów Wartościowych uzyska jedynie niewielki zwrot lub nie uzyska żadnego zwrotu z zainwestowanych środków w czasie trwania inwestycji. Możliwe jest poniesienie częściowej straty zainwestowanych środków, w zależności od Kwoty Minimalnej.

Ryzyka wynikające z Warunków i Zasad Papierów Wartościowych: Posiadacze Papierów Wartościowych ponoszą ryzyko straty w przypadku konwersji Papierów Wartościowych przez Emitenta. Papiery Wartościowe zostaną wówczas wykupione nie według Kwoty Wykupu ale według Kwoty Rozliczenia właściwej dla Papierów Wartościowych. Taka kwota nie jest uzależniona od wyników Instrumentu Bazowego i może być niższa od Kwoty Nominalnej nawet w przypadku, gdy wyniki Instrumentu Bazowego są korzystne. Ponadto, Posiadacze Papierów Wartościowych ponoszą ryzyko straty w przypadku dokonania korekty Warunków i Zasad lub wystąpienia zakłóceń na rynku.

Ryzyko związane z inwestowaniem, posiadaniem i sprzedażą Papierów Wartościowych: Posiadacze Papierów Wartościowych ponoszą ryzyko, że cena rynkowa Papierów Wartościowych może podlegać znacznym wahaniom w okresie ważności Papierów Wartościowych oraz że Posiadacz Papierów Wartościowych nie jest w stanie nabyć lub sprzedać Papierów Wartościowych w określonym czasie lub za określoną cenę

Ryzyko związane z Akcjami jako Składnikami Koszyka: Papiery Wartościowe wiążą się z ryzykiem dla Posiadaczy Papierów Wartościowych podobnym do inwestycji bezpośrednich w akcje stanowiące Składniki Koszyka. Cena akcji może gwałtownie spaść lub akcja może stać się bezwartościowa np. w wyniku niewypłacalności emitenta akcji.
